

# HOUSING NOW

## Vancouver and Abbotsford CMAs

CANADA MORTGAGE AND HOUSING CORPORATION

Date Released: May 2012

### Vancouver CMA

In April, 1,332 housing starts were recorded in the Vancouver Census Metropolitan Area (CMA), consistent with the same month in 2011. An increase in the number of multiple-family starts offset lower levels of single-detached housing starts in April, compared to the same month in 2011.

Housing starts have been steady in the Vancouver CMA during the first

four months of the year. The cities of Vancouver and Surrey continue to record strong new home construction activity during this period. While condominium apartments account for most of the housing starts in Vancouver City, townhouses are the main type of new homes started in the City of Surrey. Vancouver, New Westminster, Maple Ridge and Burnaby showed increases in home

For more information on the housing market, visit our website at [www.cmhc.ca/housingmarketinformation](http://www.cmhc.ca/housingmarketinformation). We will send you a free report on the housing market in your area. To receive your report, please fill out the form below and return it to us.

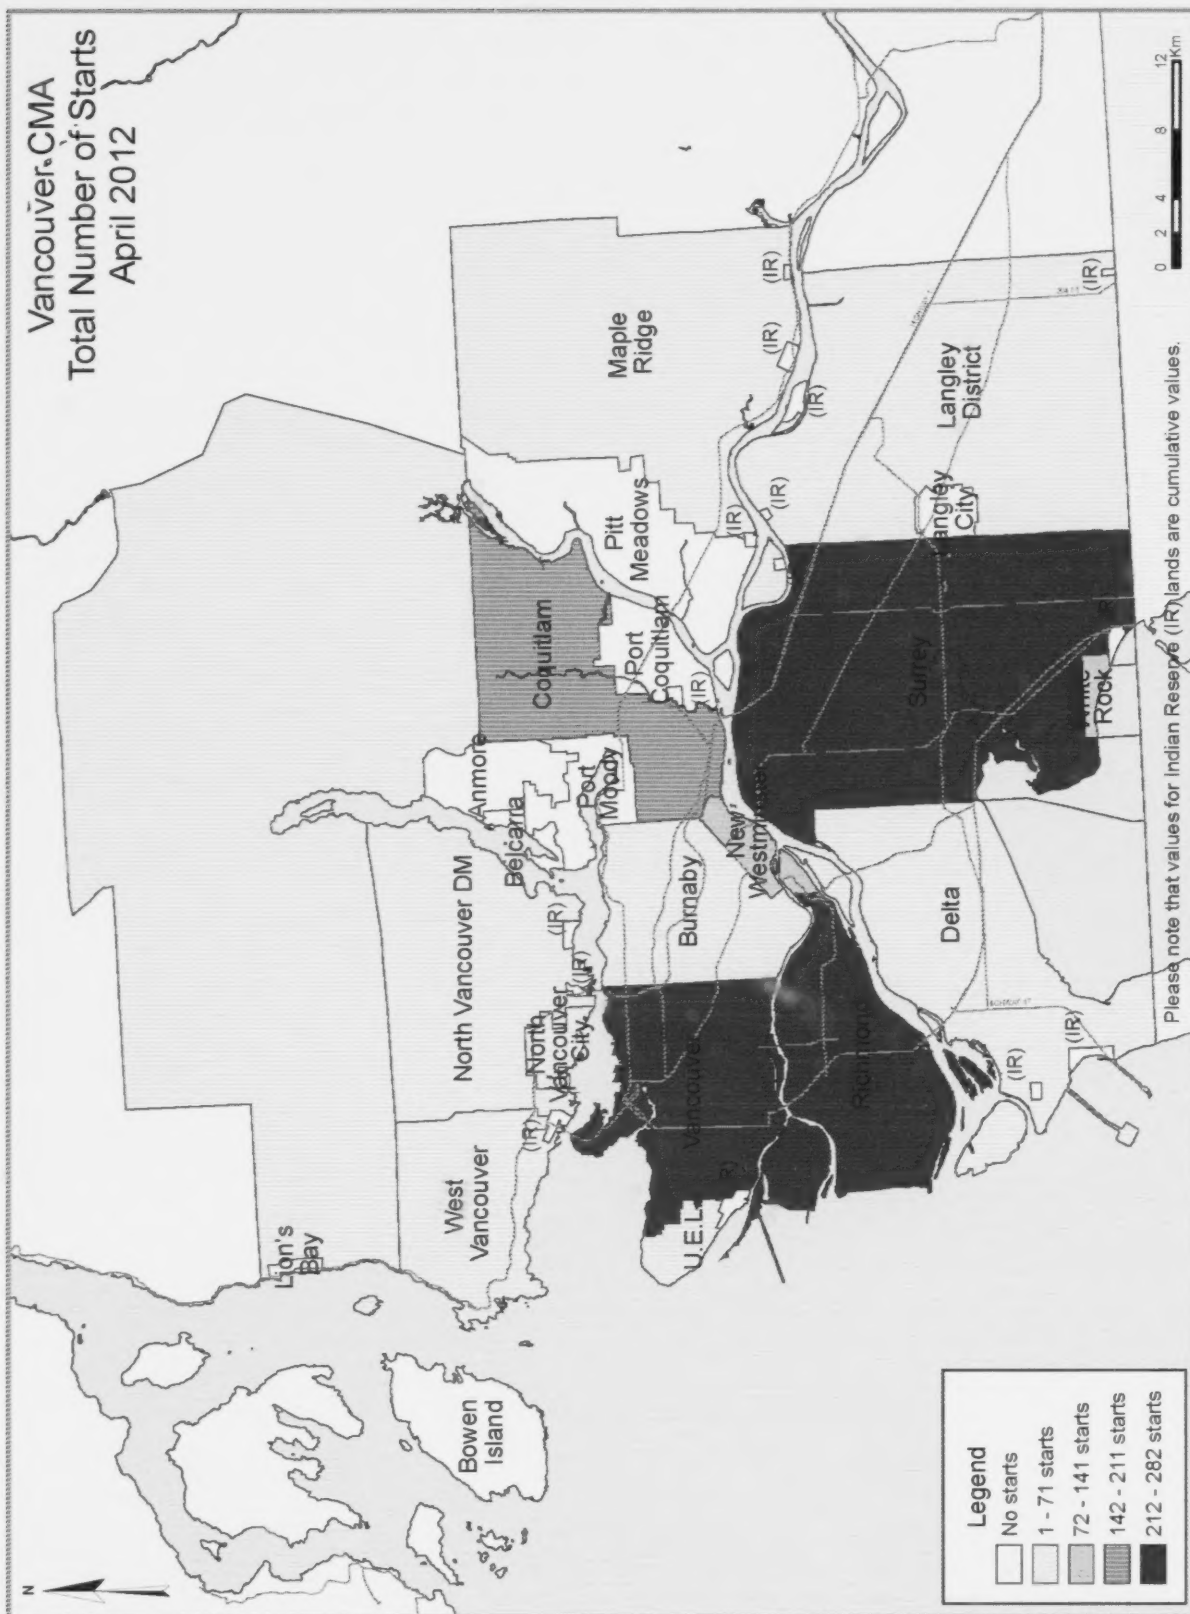

starts for the first four months of 2012 as compared to the previous year while Langley, North Vancouver and Richmond starts decreased in the same period.

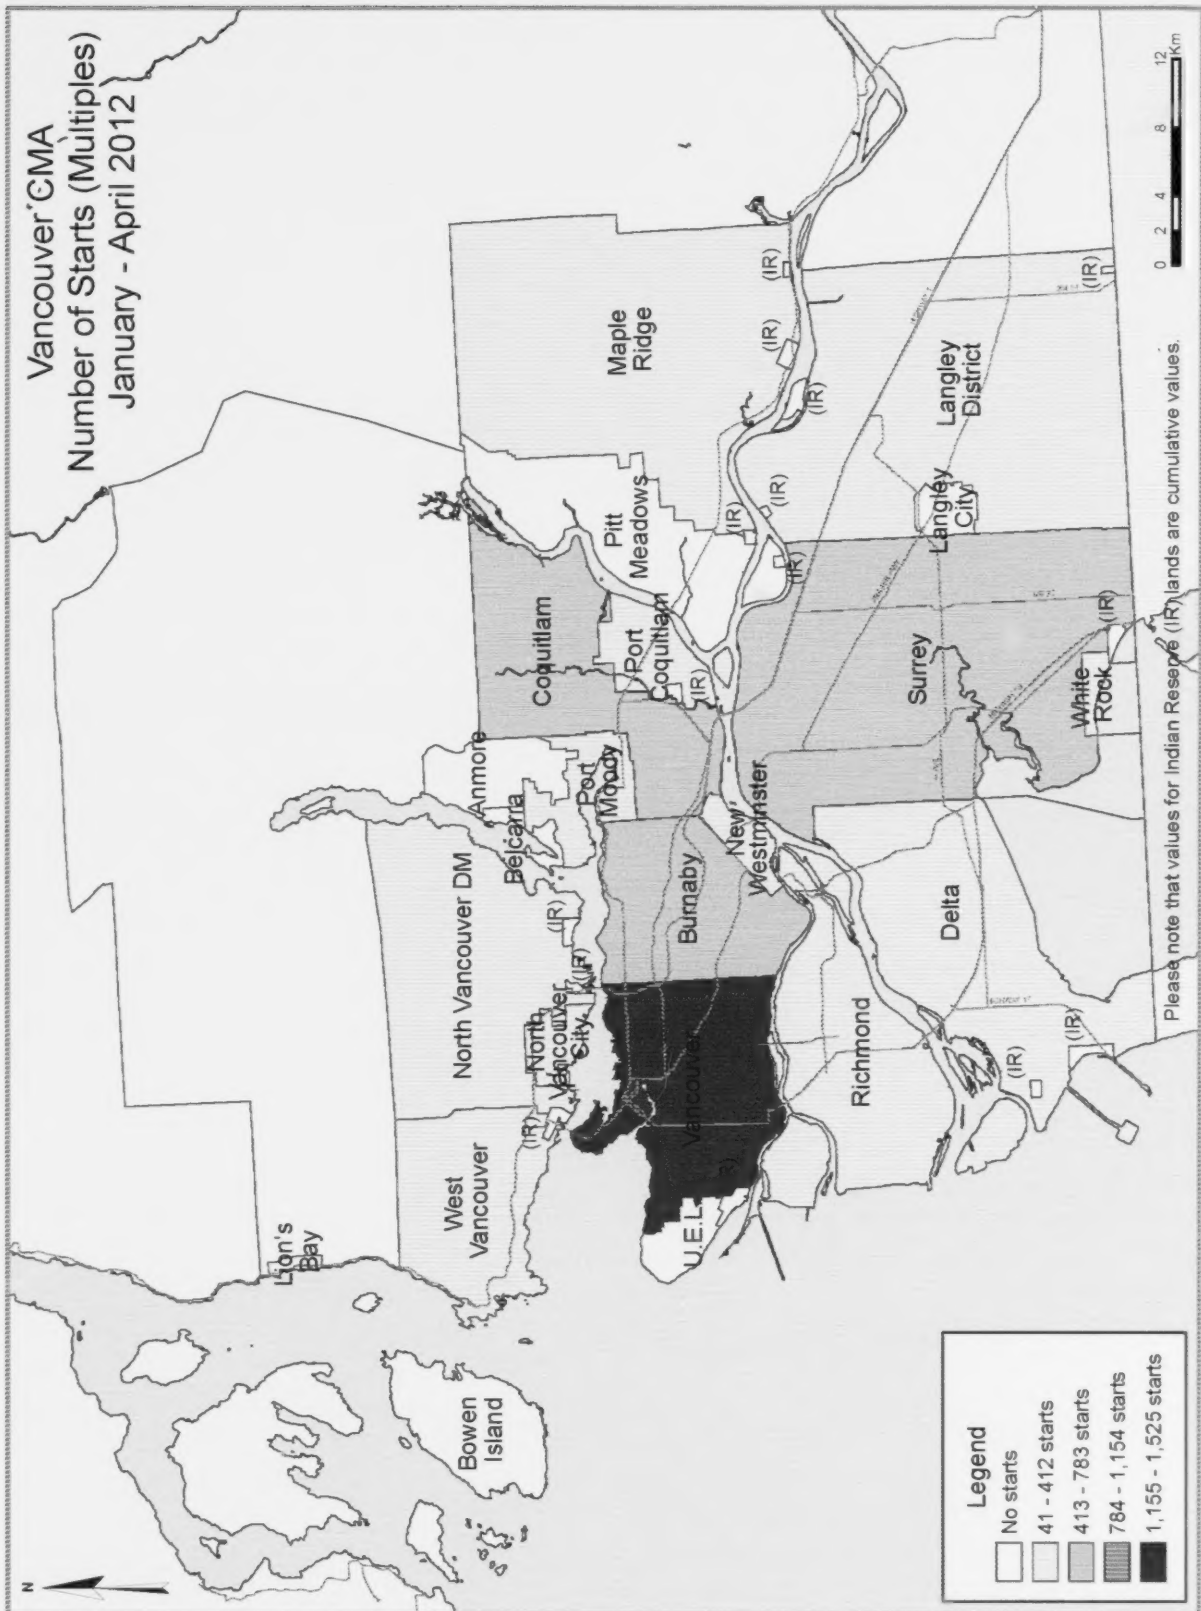

There were 60 housing starts in the Abbotsford-Mission CMA in April 2012. The majority of these were in the City of Abbotsford. Chilliwack had 24 starts in April compared to 28 in the same month last year.

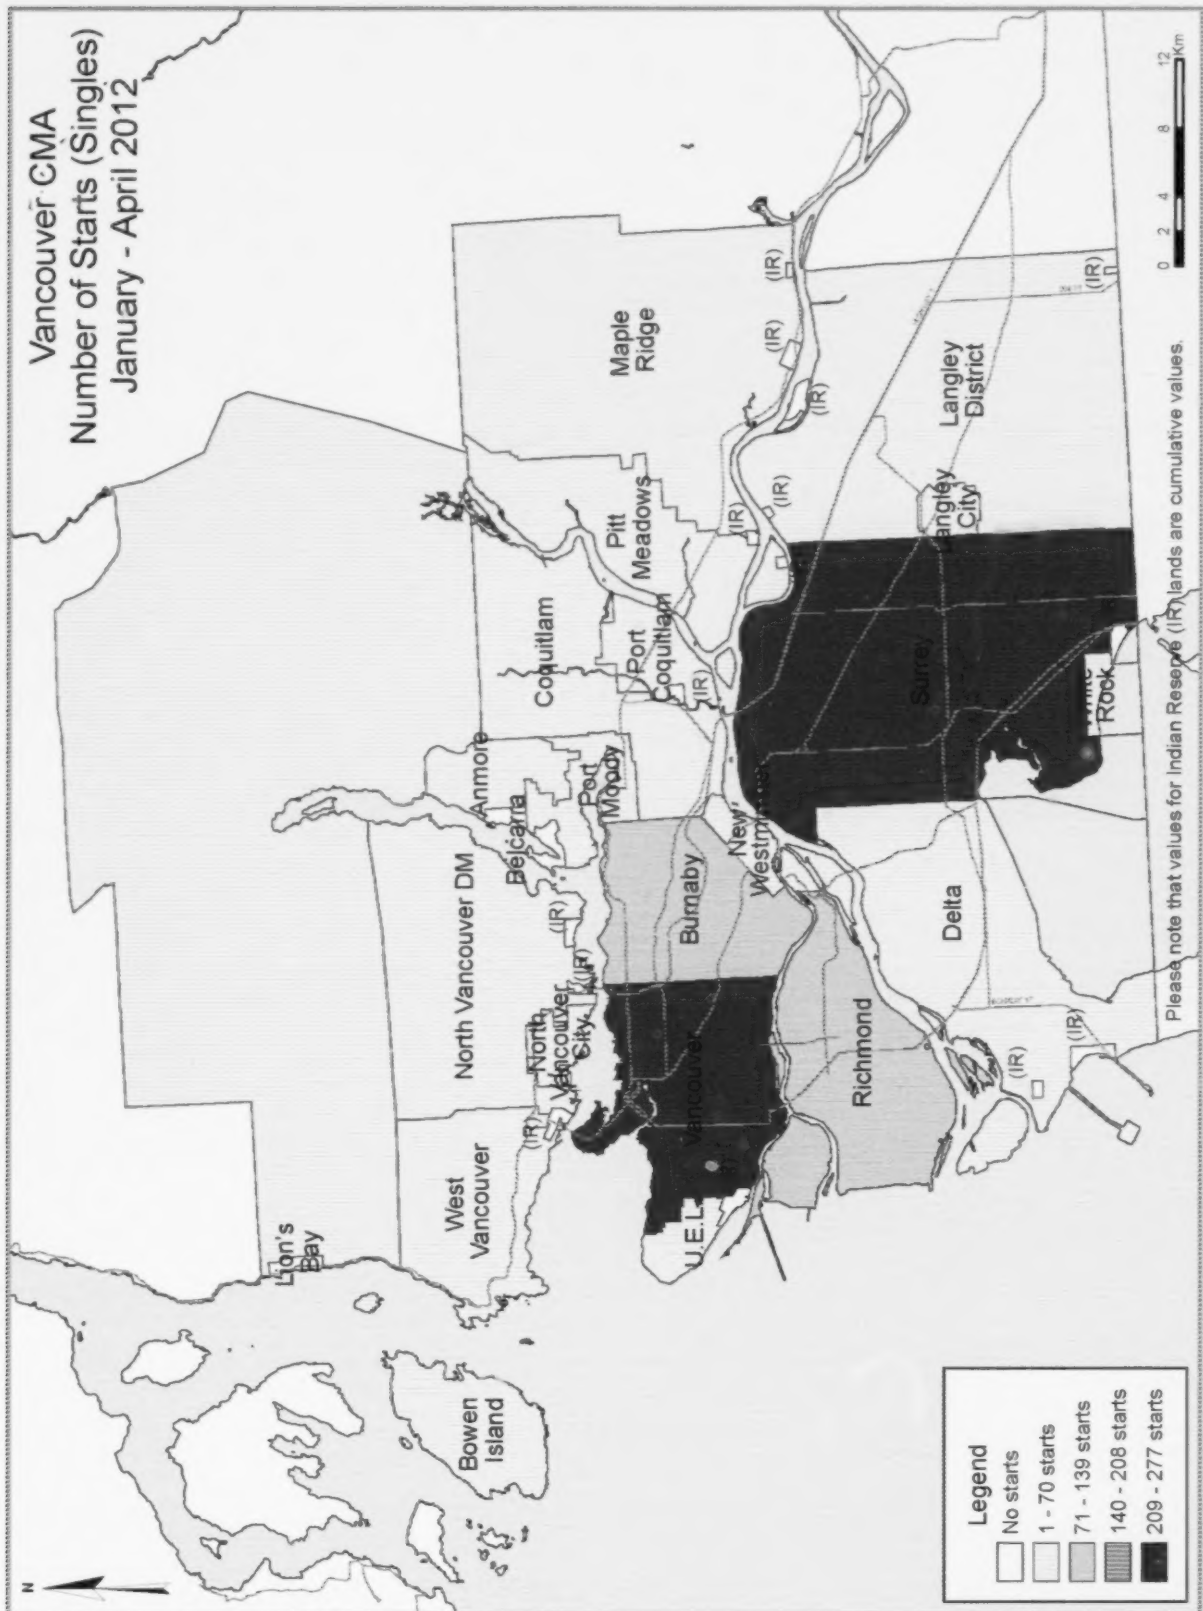

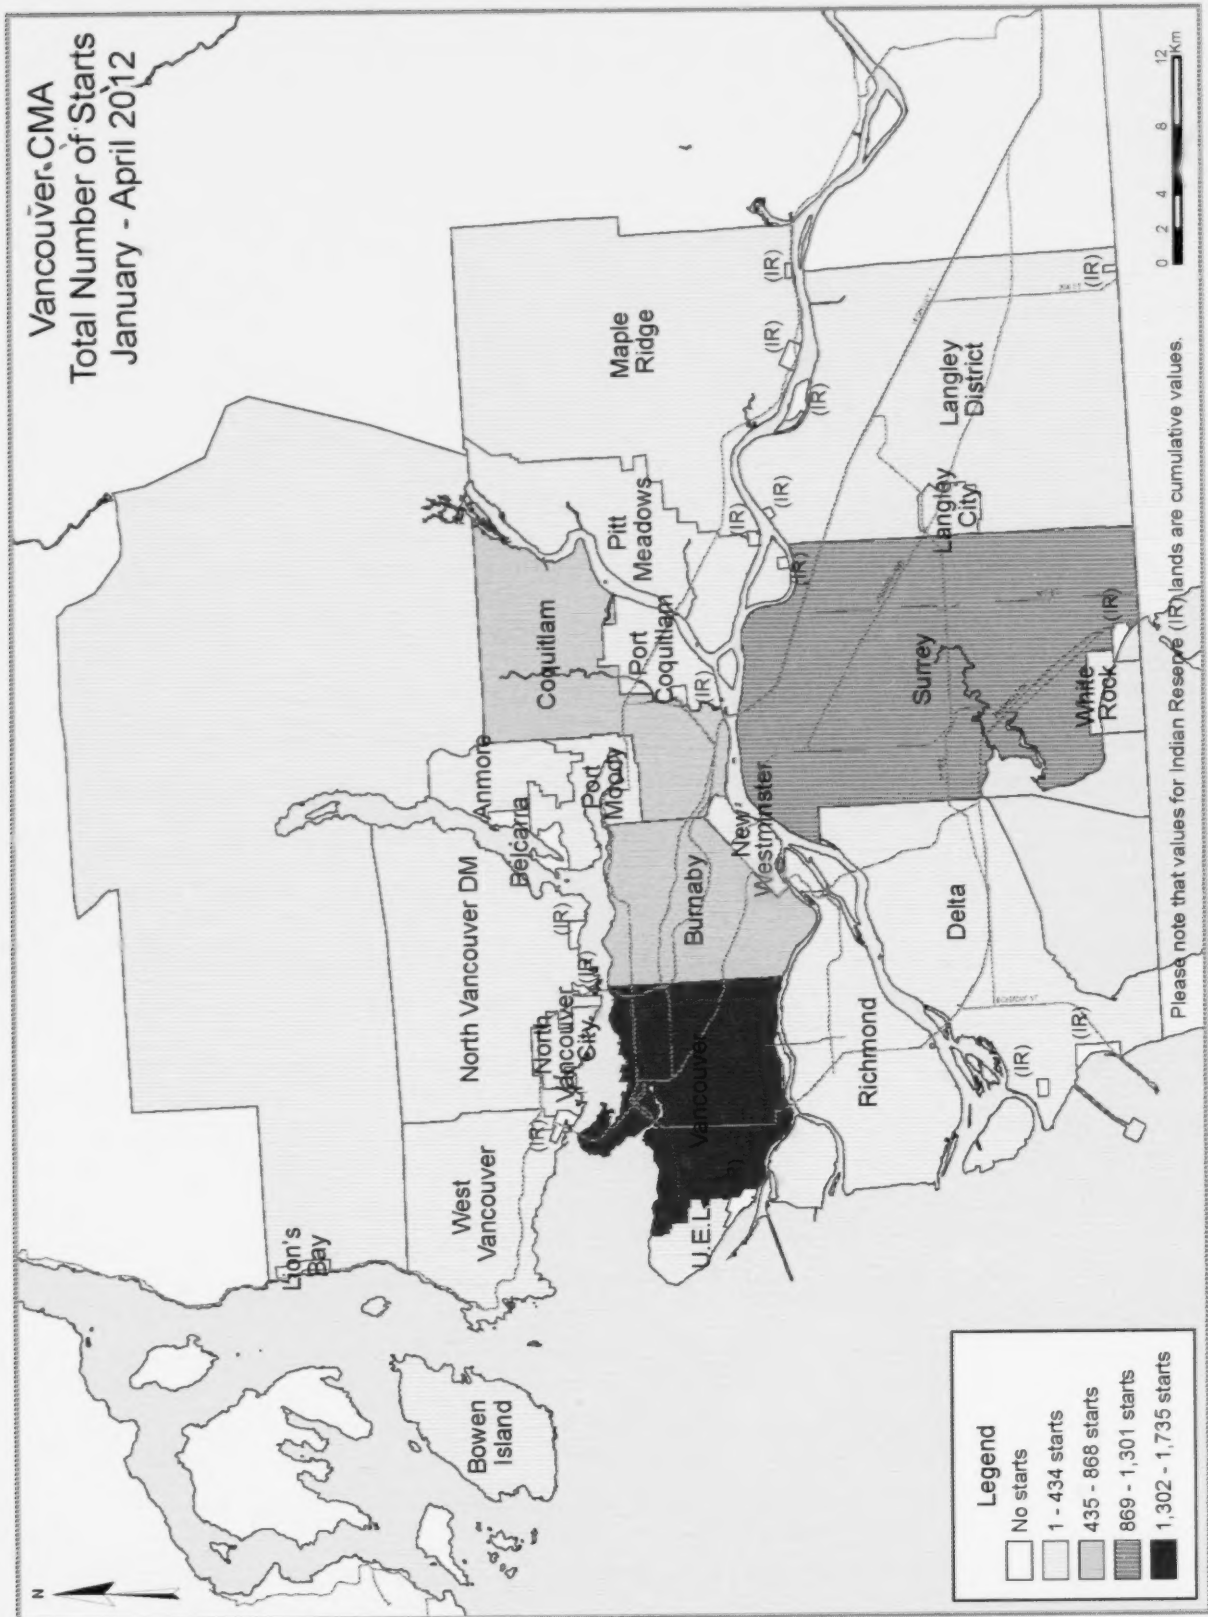

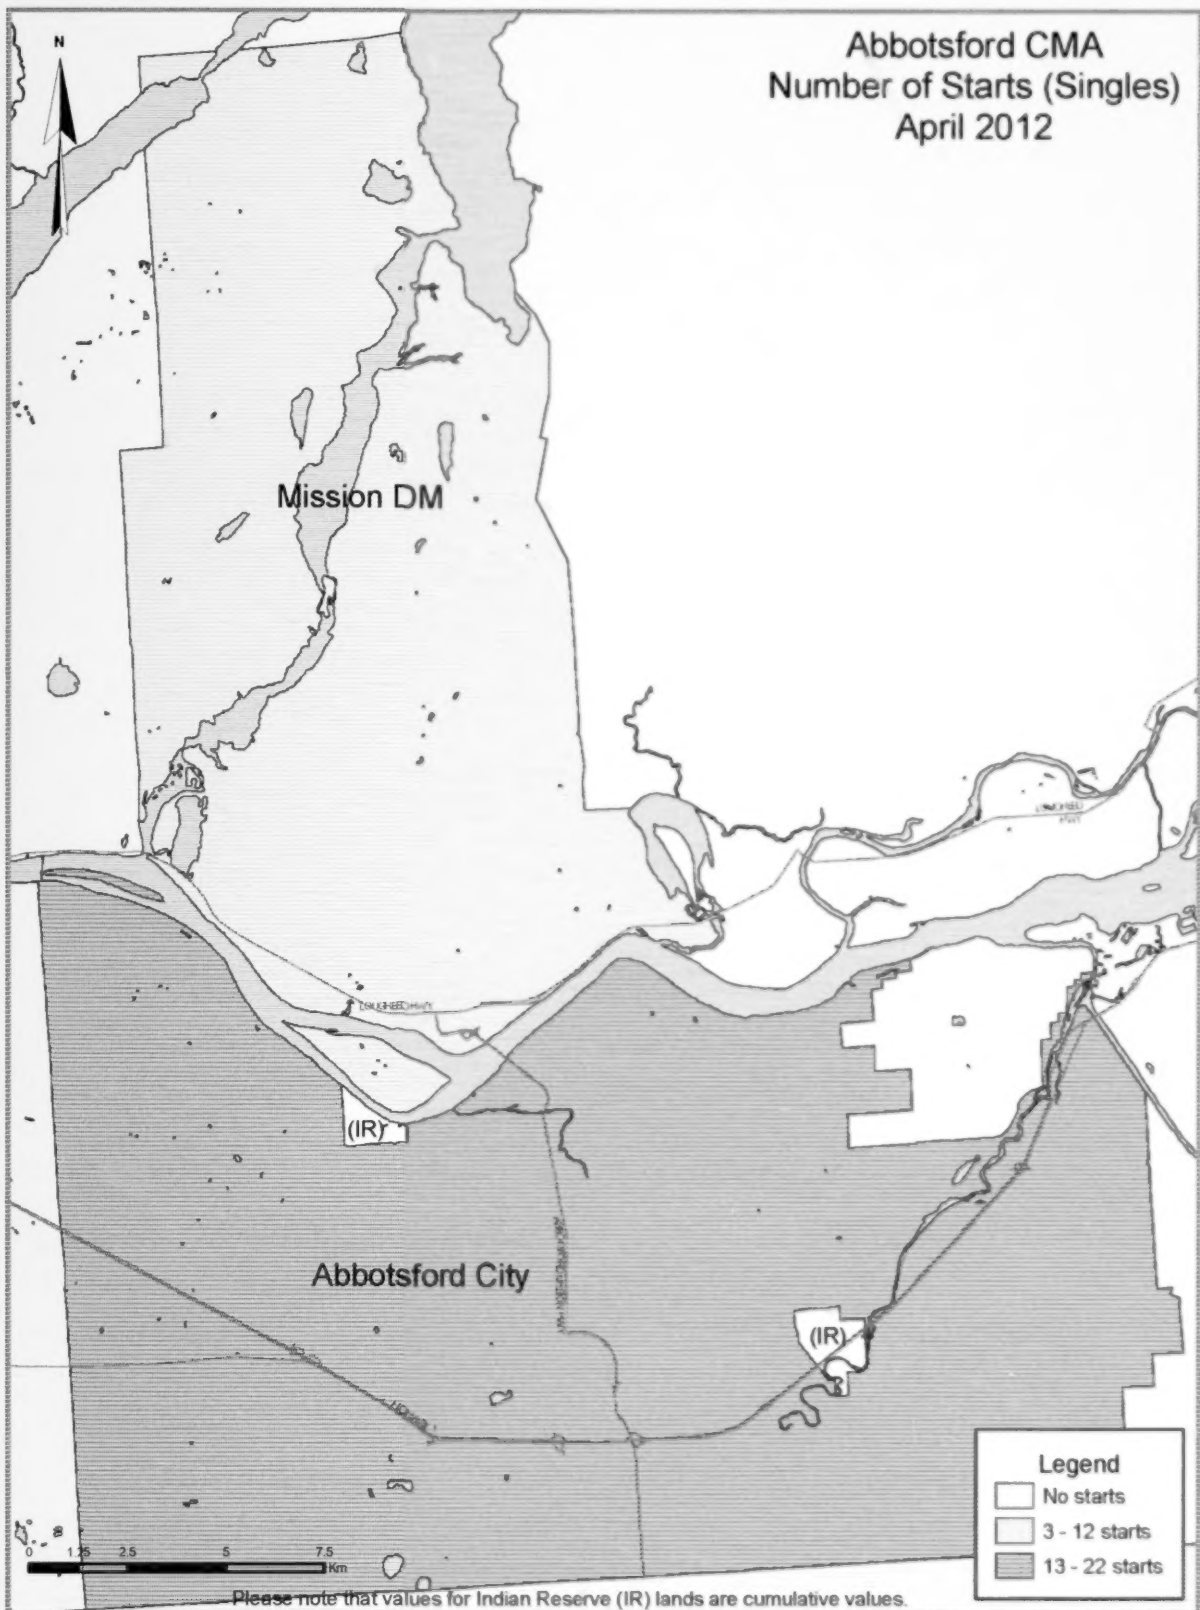

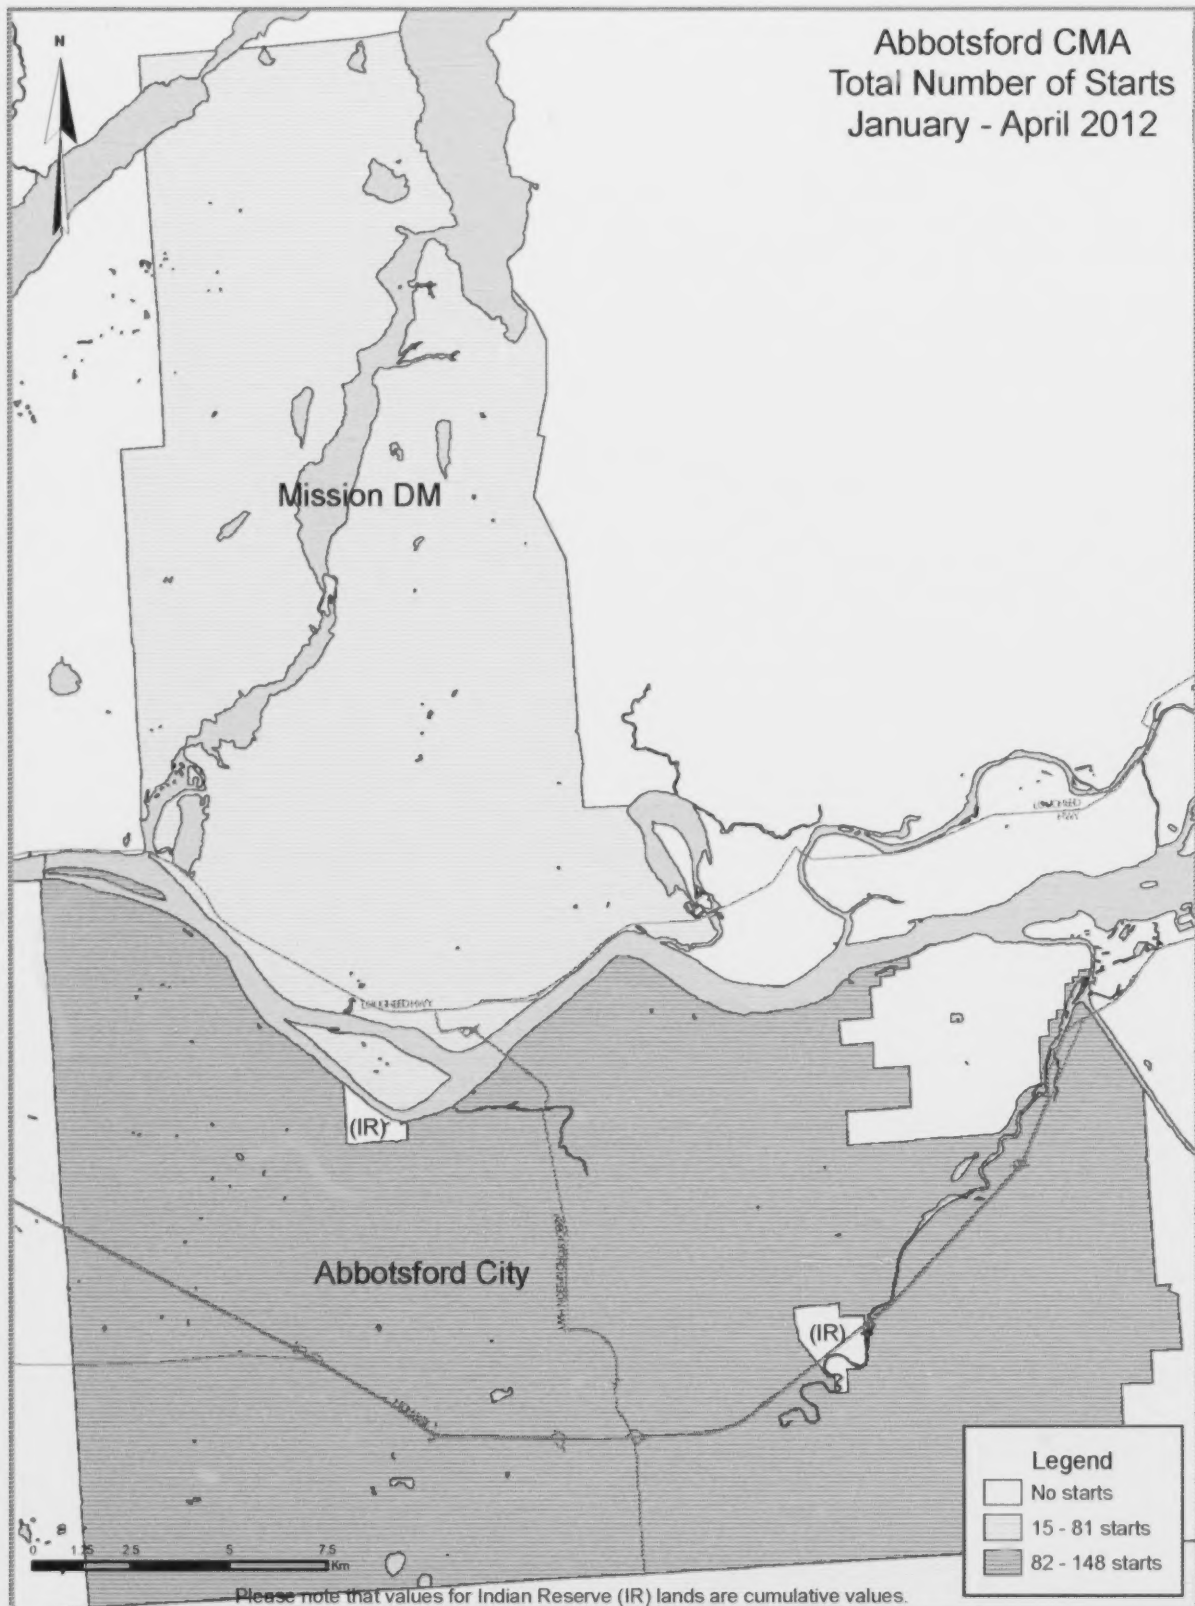

## HOUSING NOW REPORT TABLES

### Available in ALL reports:

- 1 Housing Activity Summary of CMA
- 2 Starts by Submarket and by Dwelling Type – Current Month or Quarter
- 2.1 Starts by Submarket and by Dwelling Type – Year-to-Date
- 3 Completions by Submarket and by Dwelling Type – Current Month or Quarter
- 3.1 Completions by Submarket and by Dwelling Type – Year-to-Date
- 4 Absorbed Single-Detached Units by Price Range
- 5 MLS® Residential Activity
- 6 Economic Indicators

### Available in SELECTED Reports:

- 1.1 Housing Activity Summary by Submarket
- 1.2 History of Housing Activity (once a year)
- 2.2 Starts by Submarket, by Dwelling Type and by Intended Market – Current Month or Quarter
- 2.3 Starts by Submarket, by Dwelling Type and by Intended Market – Year-to-Date
- 2.4 Starts by Submarket and by Intended Market – Current Month or Quarter
- 2.5 Starts by Submarket and by Intended Market – Year-to-Date
- 3.2 Completions by Submarket, by Dwelling Type and by Intended Market – Current Month or Quarter
- 3.3 Completions by Submarket, by Dwelling Type and by Intended Market – Year-to-Date
- 3.4 Completions by Submarket and by Intended Market – Current Month or Quarter
- 3.5 Completions by Submarket and by Intended Market – Year-to-Date
- 4.1 Average Price (\$) of Absorbed Single-Detached Units

### SYMBOLS

- n/a Not applicable
- \* Totals may not add up due to co-operatives and unknown market types
- \*\* Percent change > 200%
- Nil
- Amount too small to be expressed
- SA Monthly figures are adjusted to remove normal seasonal variation

## METHODOLOGY

### Starts & Completions Survey Methodology

The Starts and Completions Survey is conducted by way of site visits which are used to confirm that new units have reached set stages in the construction process. Since most municipalities in the country issue building permits, these are used as an indication of where construction is likely to take place. In areas where there are no permits, reliance has to be placed either on local sources or searching procedures.

The Starts and Completions Survey is carried out monthly in urban areas with population in excess of 50,000, as defined by the 2006 Census. In urban areas with populations of 10,000 to 49,999, all Starts are enumerated in the last month of the quarter (i.e. four times a year, in March, June, September and December). In these centres with quarterly enumeration, Completion activity is modelled based on historical patterns. Monthly Starts and Completions activity in these quarterly locations are statistically estimated at a provincial level for single and multi categories. Centres with populations below 10,000 are enumerated on a sample basis, also in the last month of each quarter (i.e. four times a year, in March, June, September and December).

The Starts and Completions Survey enumerates dwelling units in new structures only, designed for non-transient and year-round occupancy.

Mobile homes are included in the surveys. A mobile home is a type of manufactured house that is completely assembled in a factory and then moved to a foundation before it is occupied.

Trailers or any other movable dwelling (the larger often referred to as a mobile home) with no permanent foundation are excluded from the survey.

Conversions and/or alterations within an existing structure are excluded from the surveys as are seasonal dwellings, such as: summer cottages, hunting and ski cabins, trailers and boat houses; and hostel accommodations, such as: hospitals, nursing homes, penal institutions, convents, monasteries, military and industrial camps, and collective types of accommodation such as: hotels, clubs, and lodging homes.

### Market Absorption Survey Methodology

The Market Absorption Survey is carried out in conjunction with the Starts and Completions Survey in urban areas with populations in excess of 50,000. When a structure is recorded as completed, an update is also made as units are sold or rented. The dwellings are then enumerated each month until such time as full absorption occurs.

## STARTS AND COMPLETIONS SURVEY AND MARKET ABSORPTION SURVEY DEFINITIONS

A "dwelling unit", for purposes of the Starts and Completions Survey, is defined as a structurally separate set of self-contained living premises with a private entrance from outside the building or from a common hall, lobby, or stairway inside the building. Such an entrance must be one that can be used without passing through another separate dwelling unit.

A "start", for purposes of the Starts and Completions Survey, is defined as the beginning of construction work on a building, usually when the concrete has been poured for the whole of the footing around the structure, or an equivalent stage where a basement will not be part of the structure.

The number of units "under construction" as at the end of the period shown, takes into account certain adjustments which are necessary for various reasons. For example, after a start on a dwelling has commenced construction may cease, or a structure, when completed, may contain more or fewer dwelling units than were reported at start.

A "completion", for purposes of the Starts and Completions Survey, is defined as the stage at which all the proposed construction work on a dwelling unit has been performed, although under some circumstances a dwelling may be counted as completed where up to 10 per cent of the proposed work remains to be done.

The term "absorbed" means that a housing unit is no longer on the market (i.e. has been sold or rented). This usually happens when a binding contract is secured by a non-refundable deposit and has been signed by a qualified purchaser. The purpose of the Market Absorption Survey is to measure the rate at which units are sold or rented after they are completed, as well as collect prices.

## DWELLING TYPES:

A **"Single-Detached"** dwelling (also referred to as **"Single"**) is a building containing only one dwelling unit, which is completely separated on all sides from any other dwelling or structure. Includes link homes, where two units may share a common basement wall but are separated above grade. Also includes cluster-single developments.

A **"Semi-Detached (Double)"** dwelling (also referred to as **"Semi"**) is one of two dwellings located side-by-side in a building, adjoining no other structure and separated by a common or party wall extending from ground to roof.

A **"Row (Townhouse)"** dwelling is a one family dwelling unit in a row of three or more attached dwellings separated by a common or party wall extending from ground to roof.

The term **"Apartment and other"** includes all dwellings other than those described above, including structures commonly known as stacked townhouses, duplexes, triplexes, double duplexes and row duplexes.

## INTENDED MARKET:

The **"intended market"** is the tenure in which the unit is being marketed. This includes the following categories:

**Freehold:** A residence where the owner owns the dwelling and lot outright.

**Condominium (including Strata-Titled):** An individual dwelling which is privately owned, but where the building and/or the land are collectively owned by all dwelling unit owners. A condominium is a form of ownership rather than a type of house.

**Rental:** Dwelling constructed for rental purposes regardless of who finances the structure.

## GEOGRAPHICAL TERMS:

A census metropolitan area (CMA) or a census agglomeration (CA) is formed by one or more adjacent municipalities centred on a large urban area (known as the urban core). The census population count of the urban core is at least 10,000 to form a census agglomeration and at least 100,000 to form a census metropolitan area. To be included in the CMA or CA, other adjacent municipalities must have a high degree of integration with the central urban area, as measured by commuting flows derived from census place of work data. CMAs and CAs contain whole municipalities or Census Subdivisions.

A **"Rural"** area, for the purposes of this publication, is a centre with a population less than 10,000.

All data presented in this publication is based on Statistics Canada's 2006 Census area definitions.

## CMHC—HOME TO CANADIANS

Canada Mortgage and Housing Corporation (CMHC) has been Canada's national housing agency for more than 65 years.

Together with other housing stakeholders, we help ensure that the Canadian housing system remains one of the best in the world. We are committed to helping Canadians access a wide choice of quality, environmentally sustainable and affordable housing solutions that will continue to create vibrant and healthy communities and cities across the country.

For more information, visit our website at [www.cmhc.ca](http://www.cmhc.ca)

You can also reach us by phone at 1-800-668-2642 or by fax at 1-800-245-9274.  
Outside Canada call 613-748-2003 or fax to 613-748-2016.

Canada Mortgage and Housing Corporation supports the Government of Canada policy on access to information for people with disabilities. If you wish to obtain this publication in alternative formats, call 1-800-668-2642.

The Market Analysis Centre's (MAC) electronic suite of national standardized products is available for free on CMHC's website.
